2

**Before vs. After:
 How comfortable are you teaching economics?**

Before attending the workshop

3

67% began with a confidence level ≤ 3 on a scale of 0 (lowest) to 10 (highest)

After attending the workshop

7

81% left with a confidence level ≥ 7 on a scale of 0 (lowest) to 10 (highest)

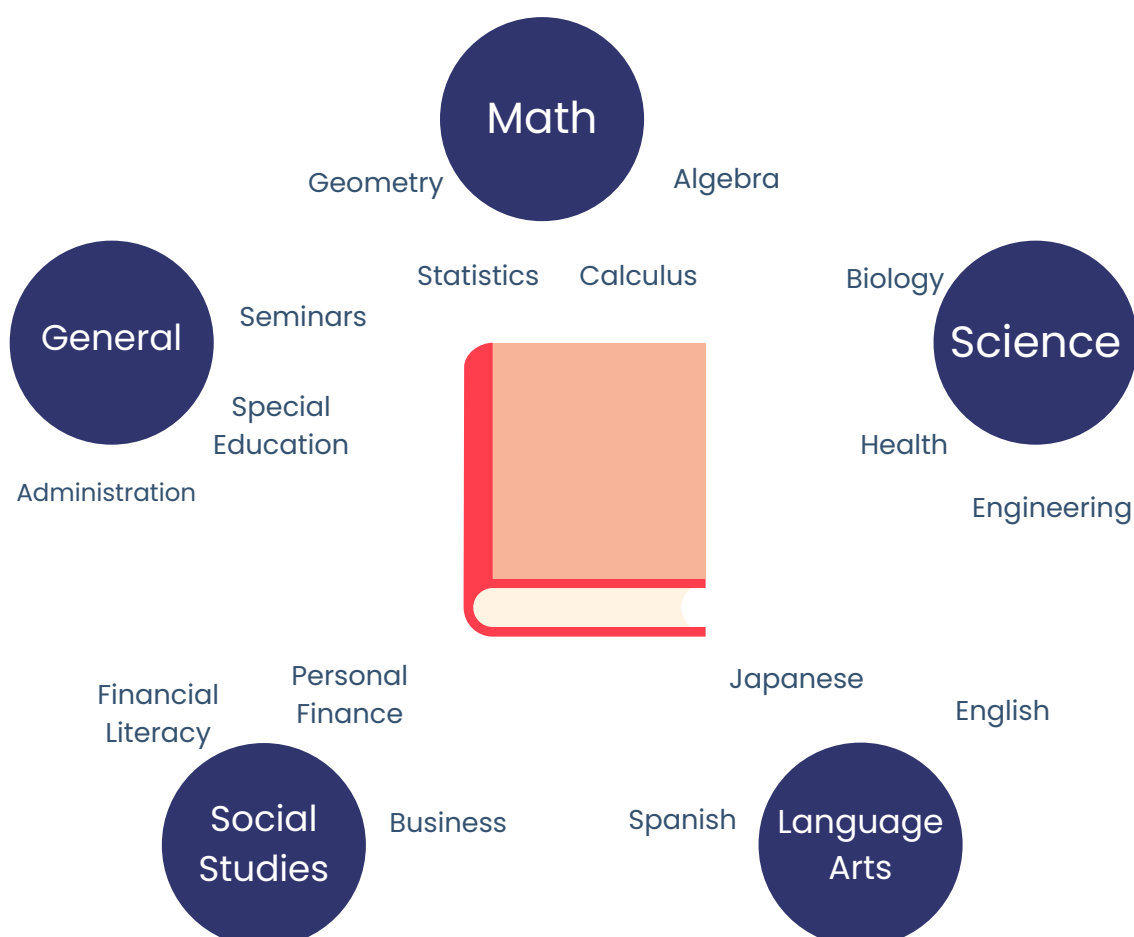

100%

of participants recommend this workshop to others

Our participants

Teach subjects in

Want an economics/finance course that

"Is interesting and applied to real life experiences"

"Is easy to understand and useful"

"Has very good examples of how it could be important for students"

"Offers tools and tips"

"Covers A to Z"

"Provide lesson plans and guidelines"

"Has activities and experience "

"Is age appropriate and understandable for younger students"

What our participants say about us:

"This course is for everyone. You don't need any background knowledge and you can learn a lot in a meaningful way."

"I gained new insight into Economics, and so much inspiration to bring these topics into my own classroom."

"The EECE Summer Workshop is a must-take PD for all educators to attend. Not only is the information relevant across all disciplines, it will also shed light on how our decisions impact our local communities."

"What I learned about personal finance and economics can absolutely be implemented with our littlest learners (preschoolers) to those ready to spread their wings (graduating seniors)."

Please visit the [Chaminade EECE website](#) for more information about the program.
